"Simplifying your documents, securing your data"

Marking Our First
Anniversary

sage

| Business Partner

Document Data Group are delighted to celebrate the end of our first year as a Sage Business Partner. The team began in October 2016 with the appointment of Sage Manager Yvonne McEwan (pictured left above). By January 2017 it was clear that many businesses were actively seeking advice on their current Sage Package to help share data easily and work smarter, leading to the decision to cross train Michael Campbell and the new appointments of Jennifer McNiven and Darren Cairney (pictured above) earlier in the year to our ever growing team.

To mark our one year anniversary we are offering all businesses a [Free Sage Health Check](#).

This service will be carried out by one of our qualified Sage consultants who will observe and query on your current processes and provide advice and recommendations on how to introduce best practise and functionality to make the most of the Sage software you are already paying for. Book your health check on the link below.
