Since we last spoke.....

The past month has been rather action packed here at Document Data Group with the arrival of a son for our colleague Iain, new customers, seminars and awards. All details are in the newsletter below.....

CONGRATULATIONS IAIN & RACHEL!

Huge congratulations to our colleague Iain Stewart and his fiancé Rachel on the birth of their son Archie born on 20th April 2018. Lots of sleepless nights ahead but its all worth it!

What is GDPR and how to implement in your business?

This was the title of the seminar we held at our Eurocentral office on Friday 27th April 2018. As you can see from the picture below we had a full boardroom of different business delegates eager to learn.

We were delighted to welcome Douglas McLachlan, a Senior Partner of Anderson Strathern who began the seminar by giving a presentation on the GDPR legislation and the key action points each business must put into place.

At this point most seminars will end and people leave knowing WHAT they need to do but without an idea of HOW to do it. The second half of the seminar was therefore the "HOW TO" guide.

Alan McGhee our Professional Services Manager presented on Document Management getting the audience to consider how they currently store personal information and if this is acceptable for GDPR compliance. Alan Smillie from Softworxs then went on to discuss training of staff, network security and data mapping all of which need to be considered for GDPR.

If you would like to book a meeting to discuss Document Management please fill in your details on the contact us form below.
